

The National ID card Project Office,
The Federal Democratic Republic of Ethiopia,
Addis Ababa, Ethiopia

10 January 2014

Dear Sir/Madam,

With this letter, we would like to confirm that as a subcontractor of G&D, GenKey Solutions B.V. has successfully delivered an automatic fingerprint identification system (AFIS) for the Cameroon parliamentary election held on September 30, 2013.

A total exceeding 5 Million citizens were enrolled into the register database with each record containing a face image and 6 fingerprint images. Subsequently AFIS was applied to identify and remove multiple records of the same subject. In this project, the GenKey civil AFIS was implemented using the Innovatrics ANSI/ISO SDK and ANSI/IMCITS 378 Matcher.

With this, we would also like to affirm that the delivery of GenKey Solution B.V. was of high standard and G&D has appreciated their dedication to tackle unexpected challenges.

Sincerely yours,

Giesecke & Devrient FZE
