15 January 2014

Dear Sir/Madam,

We wish to confirm by this letter that, as a subcontractor of WCC-Group, GenKey Solutions B.V has successfully delivered the GenKey Fast AFIS system for Biometric De-duplication solution for a Latin American Border Crossing funded by the US Department of State. The Fast AFIS integrates the Innovatrics ANSI/ISO SDK and ANSI/IMCITS 378 Matcher.

The overall solution enables to enroll several million of subjects with a face image and 10 fingerprint images; deduplication is performed using the 10 fingerprint per subject. Due to the confidentiality of the project, I am not able to provide more information concerning the purpose, the location and the exact size of the project.

In view of this, I would like to affirm that the delivery of GenKey Solution BV was of high standard and the customer has appreciated their team-work and readiness to tackle unexpected challenges.

Sincerely yours,

Tarvinder S. Sembhi
